We train on various models of Forklifts, Aerial Lifts (Boom and Scissor) and Loaders.

Our training and certification is regulatory compliant with the most current standards and regulations. Programs are provided either at our sites or on workplaces all around the nation. Our various safety courses help to ensure safe and effective workplaces.

Reasons to Train the Trainer

The best option for training employees is sometimes engaging the services of a third party organization to carry out the training and certification. There are nonetheless several good reasons to send a few of your personnel to Train the Trainer courses. Your company can benefit by making the most out of your investment. Teaching an existing staff individual to train various employees is less expensive than hiring someone new. Businesses must avoid expecting individuals to take on trainer duties on top of their current responsibilities. The designated trainer has to be relieved of some of their duties to be able to avoid trainer exhaustion.

Your business would be more empowered by developing its own internal training resources. It would help to increase the resources of the company and would encourage the personnel to become more self-reliant. Your workers might well be more comfortable utilizing an in-house trainer when learning new skills. By training internally, new staff can trained fast and brought up to speed on the machine in case of staff turnover.
